

Orchid Show Entry Conditions

1. Entries of exhibits shall be free and open to all members of orchid societies and other invited groups. Acceptance of any entry shall be conditional on the exhibitor agreeing to be bound by the conditions set out below. Exhibitors are responsible for the correct labelling of every plant exhibited and must show the class and exhibitor's ID number (obtainable from Benching Plant Registrars).
2. ANOS (Qld) - Kabi Group Inc. or its agents accept no responsibility for the theft, loss, destruction or damage of any kind to plants either during transport to or from the show or while on display at the show. All reasonable care will be taken.
3. All plants exhibited for judging must be Australian or Australasian in origin as defined in the Australasian Native Orchid Society (ANOS) constitution.
4. The Show Marshall has the right to determine the class in which any plant may be exhibited. The Show Marshall may reject, remove or rearrange any entry and combine and/or establish extra classes if needed. The Show Marshall's decision is final.
5. The Show Marshall shall have the right to refuse the exhibition of any plant which in his/her opinion appears diseased, has insect pests on the plant or is not of show bench quality.
6. Fire Ant Regulations must be adhered to otherwise the Show Marshall may refuse the exhibition or sale of the plants.
7. Plants competing for prizes shall have been owned and in the possession of the exhibitor for the preceding six (6) months.
8. Exhibits must be benched on Friday 8 April 2022 between 2:00 pm and 7:00 pm. There shall be no restriction on the number of separate entries by the exhibitor in any class or classes. Should the show facility not be able to exhibit the potential number of entries, it is agreed, the decision on plants chosen to be exhibited will rest with the Show Marshall. Entries in joint names will be accepted. All eligible exhibited plants will be judged.
9. Exhibits must not be removed from the benches before the termination of the show; no blooms shall be removed from a plant even though spent or plants or blooms interfered with except under the authority of the Show Marshall.
10. ANOS judging and staking standards apply (staking of inflorescences is not permitted but there is no prohibition in staking pseudobulbs). No prizes shall be given if, in the opinion of the judges, no prize is warranted. The judges' decision is final.
11. A seedling shall mean a plant in its first flowering season since being raised from seed. This does not include mericlones.
12. Flower width is to be measured across the horizontal natural spread (visible limits) of the flower without manipulation (flattening).
13. *Dendrobium* sect. *Dendrocoryne* includes *D. adae*, *aemulum*, *falcorostrum*, *fleckeri*, *gracilicaule* (all varieties), *jonesii* (all varieties), *kingianum* (all varieties), *moorei*, *speciosum* (all varieties) and *tetragonum* (all varieties). Refer to Classes 11, 16, 35 and 38.
14. The *Dendrobium* sect. *Dendrocoryne* with sect. *Phalaenanthe* Hybrids class should be exclusively for the benching of orchid hybrids between orchid species or hybrids of the *Dendrocoryne* Section of the *Dendrobium* genus and orchid species or hybrids of the *Phalaenanthe* Section of the *Dendrobium* genus. Refer to Class 26.
15. *Dendrobium* sect. *Latouria* includes *D. bifalce* and all species in this section of the *Dendrobium* genus from New Guinea and islands within the defined ANOS boundaries. Refer to Classes 8, 27, 28 and 29.
16. The *Dendrobium* sect. *Latouria* with sect. *Phalaenanthe* Hybrids class should be exclusively for the benching of orchid hybrids between orchid species or hybrids of the *Latouria* Section of the *Dendrobium* genus and orchid species or hybrids of the *Phalaenanthe* Section of the *Dendrobium* genus. Refer to Class 29.
17. *Dendrobium* sect. *Phalaenanthe* includes *D. bigibbum* (all varieties and synonyms) and *dicuphum* (and synonyms). Refer to Classes 1, 2, 3, 4, 5, 6, 7, 11, 16, 26, 29 and 33.
18. The *Dendrobium* sect. *Phalaenanthe* Type Hybrids class should include all hybrids exclusively amongst the *Phalaenanthe* Section of the *Dendrobium* genus and all complex hybrids which conform to the generally accepted shape requirements of a *Phalaenanthe* Type being the flower should be circular in form, sepals should be wide and evenly spaced with the dorsal erect. Petals should be broad and rounded, spaced evenly, and overlapping the sepals. The labellum should not project forward nor turn under at the tip. It should be of sufficient size to balance the flower. The flower should display itself fully. Refer to Classes 18, 19, 20, 21, 22, 23, 24 and 25.
19. The *Dendrobium* sect. *Phalaenanthe* with sect. *Spatulata* Hybrids class should be for primary and complex hybrids between the *Phalaenanthe* and *Spatulata* Sections of the *Dendrobium* genus which do not conform to the shape requirements of either the *Phalaenanthe* or *Spatulata* classes. Refer Conditions 17 and 21 plus Class 33.
20. *Dendrobium* sect. *Rhizobium* species (*Dockrillia*) includes all species in this section of the *Dendrobium* genus that exist on the Australian mainland and New Guinea and islands within the defined ANOS boundaries. Refer to Classes 9, 30, 31 and 32.
21. *Dendrobium* sect. *Spatulata* includes *D. antennatum*, *canaliculatum* (all varieties), *carronii*, *discolor*, *johannis*, *mirbelianum*, *nindii*, *trilamellatum* and all species in this section of the *Dendrobium* genus from New Guinea and islands within the defined ANOS boundaries. Refer to Classes 11 and 16.
22. The *Dendrobium* sect. *Spatulata* Type Hybrids class should be for hybrids made exclusively with section *Spatulata* species or mainly from section *Spatulata* species. They may be primary hybrids or complex hybrids; and may include other sections, particularly *Phalaenanthe*; but should include the characteristically twisted petals and sepals of the typical section *Spatulata* species. Refer to Class 34.
23. A Specimen exhibit should conform as far as possible for its type considering the following criteria:
 - An epiphyte or clump forming terrestrial (e.g. *Phaius*) should be a single, mature, many-flowered plant,
 - For other terrestrials it should contain a minimum of 12 flowering plants. If a colony forming type they must have no clonal variation, but such variation is acceptable for non-multiplying species.
24. The Champion *Dendrobium* bigibbum, Champion Species and Champion Hybrid will be eligible for nomination for the appropriate Ira Butler, Bill Murdoch and/or G. Hermon Slade trophies (awards). The best *Dendrobium* sect. *Spatulata* species or hybrid (provided they are conferred at least first place in class) will be eligible for nomination for the Kenneth Alexander MacPherson Memorial Trophy.
25. Classes 40, 41, 42 and 43 are open to Kabi Group members only.

Australasian Native Orchid Society (QLD) - Kabi Group Inc.

ORCHID SHOW SCHEDULE

Combined Orchid Spectacular Incorporating the inaugural Australasian Native Orchid Autumn Show *'A Celebration of Cookies'*

To be held at

Genesis Christian College (Covered Courts)
12-16 Youngs Crossing Road, Bray Park

On

Friday
Plant Benching
Judging
8 April 2022
2:00 pm – 7:00 pm
from 7:30 pm

Saturday
Open
9 April 2022
8:30 am – 3:30 pm

Sunday
Open
10 April 2022
8:30 am – 2:00 pm

Show Marshall
Ross Harvey
Show Sub-Committee Chair
Warren Wilcox
0456 003 035
email: anos.kabi@gmail.com

This is an Open Show

Prize Money

Champion <i>Dendrobium bigibbum</i>	\$75.00	1 st In Class	\$15.00
Champion Species	\$75.00	2 nd In Class	\$10.00
Champion Hybrid	\$75.00	3 rd In Class	\$5.00
Champion Specimen	\$75.00		

Australian and Australasian Species Classes

- Class 1 *Dendrobium bigibbum* (White and white with coloured centre) Intervarietal and unknown provenience
- Class 2 *Dendrobium bigibbum* (Bicolor) Intervarietal and unknown provenience
- Class 3 *Dendrobium bigibbum* (Other colours including striped) Intervarietal and unknown provenience
- Class 4 *Dendrobium bigibbum* var. *bigibbum* Known provenience and all parents of know provenience
- Class 5 *Dendrobium bigibbum* var. *compactum* Known provenience and all parents of know provenience
- Class 6 *Dendrobium bigibbum* var. *schroederianum* Known provenience and all parents of know provenience
- Class 7 *Dendrobium bigibbum* var. *superbum* Known provenience and all parents of know provenience
- Class 8 *Dendrobium* sect. *Latouria* Species
- Class 9 *Dendrobium* sect. *Rhizobium* Species (known by some as *Dockrillia*)
- Class 10 *Dendrobium* sect. *Spatulata* Species
- Class 11 Other *Dendrobium* Species (Not elsewhere included) [considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)]
- Class 12 *Aeridinae* (formerly *Sarcanthinae*) Species
- Class 13 Geophytic (Terrestrial) Species
- Class 14 Other Species (Not elsewhere included)
- Class 15 *Dendrobium bigibbum* Seedlings First flowering Please refer to Condition 11
- Class 16 Other *Dendrobium* Species Seedlings (Not elsewhere included) [considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)] First flowering Please refer to Condition 11
- Class 17 Other Species Seedlings (Not elsewhere included) First flowering Please refer to Condition 11

Australian and Australasian Hybrid Classes

- Class 18 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (White and white with coloured centre) Flower width greater than 40 mm Please refer to Conditions 12 and 18
- Class 19 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (White and white with coloured centre) Flower width 40 mm or less Please refer to Conditions 12 and 18
- Class 20 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Bicolor) Flower width greater than 40 mm Please refer to Conditions 12 and 18
- Class 21 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Bicolor) Flower width 40 mm or less Please refer to Conditions 12 and 18
- Class 22 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Striped), Flower width greater than 40 mm Please refer to Conditions 12 and 18

- Class 23 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Striped) Flower width 40 mm or less Please refer to Conditions 12 and 18
- Class 24 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Other colours) Flower width greater than 40 mm Please refer to Conditions 12 and 18
- Class 25 *Dendrobium* sect. *Phalaenanthe* Type Hybrids (Other colours) Flower width 40 mm or less Please refer to Conditions 12 and 18
- Class 26 *Dendrobium* sect. *Dendrocoryne* with sect. *Phalaenanthe* Hybrids Please refer to Condition 14
- Class 27 *Dendrobium* sect. *Latouria* Hybrids Flower width greater than 30 mm Please refer to Conditions 12 and 15
- Class 28 *Dendrobium* sect. *Latouria* Hybrids Flower width 30 mm or less Please refer to Conditions 12 and 15
- Class 29 *Dendrobium* sect. *Latouria* with sect. *Phalaenanthe* Hybrids Please refer to Conditions 15, 16 and 17
- Class 30 *Dendrobium* sect. *Rhizobium* Primary Hybrids (known by some as *Dockrillia*)
- Class 31 *Dendrobium* sect. *Rhizobium* Hybrids (known by some as *Dockrillia*) [White/Cream/Yellow/Green and White/Cream/Yellow/Green with coloured centre but not spotted or speckled]
- Class 32 *Dendrobium* sect. *Rhizobium* Hybrids (known by some as *Dockrillia*) [Other Colours]
- Class 33 *Dendrobium* sect. *Phalaenanthe* with sect. *Spatulata* Hybrids Please refer to Condition 19
- Class 34 *Dendrobium* sect. *Spatulata* Type Hybrids Please refer to Condition 22
- Class 35 Other *Dendrobium* Hybrids (Not elsewhere included) [parents considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)]
- Class 36 *Aeridinae* (formerly *Sarcanthinae*) Hybrids
- Class 37 Other Hybrids (Not elsewhere included)
- Class 38 *Dendrobium* Hybrid Seedlings [parents considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)] First flowering Please Refer to Condition 11
- Class 39 Other Hybrid Seedlings (Not elsewhere included) First flowering Please refer to Condition 11

Australian and Australasian Novice Classes

- Class 40 Novice *Dendrobium* Species [considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)] Open to Kabi Group members only
- Class 41 Novice Other Species (not elsewhere included) Open to Kabi Group members only
- Class 42 Novice *Dendrobium* Hybrids [parents considered to be *Dendrobiums* by the World Checklist of Selected Plant Families (WCSP)] Open to Kabi Group members only
- Class 43 Novice Other Hybrids (not elsewhere included) Open to Kabi Group members only

Please Note: Photography Classes in separate schedule.
